

SH 16 Mesa Ridge Parkway

View the Proposed SH 16 Improvements at the Project Open House

Come to the open house on January 28th and see the proposed transportation improvements on SH 16. The improvements include:

- ▶ Operational and safety improvements to the I-25/SH 16 interchange addressing the problems of traffic backing up onto SH 16 and the highway during rush hours.
- ▶ Additional lanes for increased traffic capacity on SH 16 between I-25 and SH 85.
- ▶ Operational and safety improvements to the SH 16/SH 85 interchange addressing the proximity of the turns onto the highway loop ramps and the frontage roads. Also, improved operations with increased radius of the loop ramps.

Other proposed improvements to be displayed will include frontage road modifications, roadway landscape treatments, structures, and adjacent highway projects.

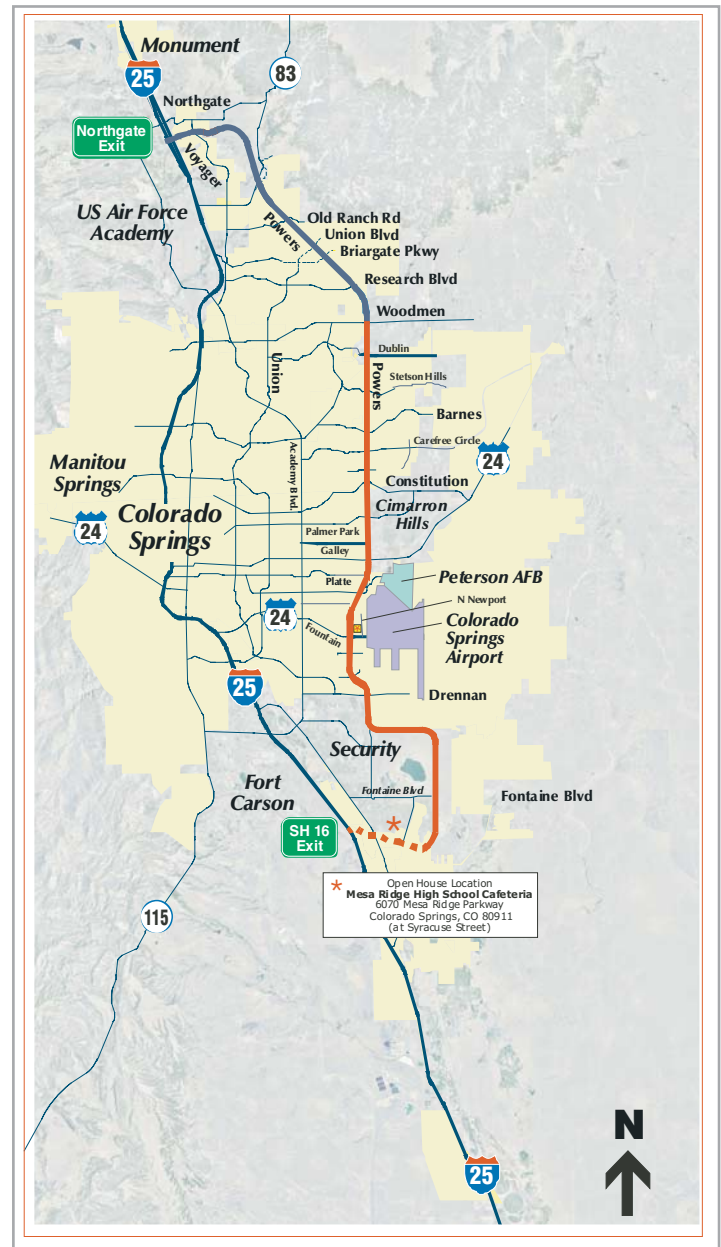

The potential effects of the proposed SH 16 improvements will also be available for your review and comment.

Project engineers and designers will be at the open house to meet with attendees to answer questions and make sure that your comments are included in the further refinement of these improvements.

Don't be the missing LINK.

**Wednesday,
January 28th - 5:00 to 7:30 pm**

Mesa Ridge High School Cafeteria
6070 Mesa Ridge Parkway
Colorado Springs, CO 80911

Reasonable accommodations will be provided upon request for individuals with disabilities. If you require special accommodations to participate in this open house, please call 719.598.LINK(5465), or email your request to theLINK@wilsonco.com.

What is the Project?

The Colorado Department of Transportation (CDOT), along with the Federal Highway Administration (FHWA), is conducting an Environmental Assessment (EA) to evaluate various transportation solutions that will reduce the congestion projected on Powers Boulevard by the year 2025. This EA will evaluate Powers Boulevard south of Woodmen Road to I-25, including SH 16/ Mesa Ridge Parkway.

Public involvement has been an important part of the EA process and the identification of the proposed improvements for SH 16 that will be shown at the open house on January 28th.

If you are unable to attend this open house, there will be future opportunities to look at and comment on these proposed improvements.

SH 85 looking South

Since the Last Open House...

The Project Team has focused on identification of the proposed SH 16 transportation improvements and related tasks including:

- Analysis of comments received from the public
- Level III screening of options
- One-on-one and small group meetings with adjacent stakeholders to provide information for the identification of the proposed improvements
- Assessment of the effects of the proposed improvements
- Design improvements and modifications to minimize effects
